

## C++ Program to Print Number Entered by User

```
#include <iostream>
using namespace std;
int main() {
    int number;
    cout << "Enter an integer: ";
    cin >> number;
    cout << "You entered " << number;
    return 0;
}
```

Or

```
#include <iostream>
using namespace std;
int main() {
    int number;
    printf("Enter an integer: ");
    scanf("number", & number);
    //printf("You entered number" );
    return 0;
}
```
